ABSTRACT:

E-Partnership Making is a web portal which is being developed for marriages. This portal acts as an information booth for those who are looking for marriage. In this, when the user registers according to the registration, the user can view matches he can update the profile and upload the photos.

It’s an online E-Partnership Making service. It’s convenient, it gives you the widest choice possible and it can be done sitting in the privacy of one’s cubicle. Today when professionals across the world are spending 10-12 hours at work every day, Online Partnership Making brings them the option of looking for a partner right on to their laptops and PC’s.
